COMPANY PROFILE

Nature's Finest, Unearthed.

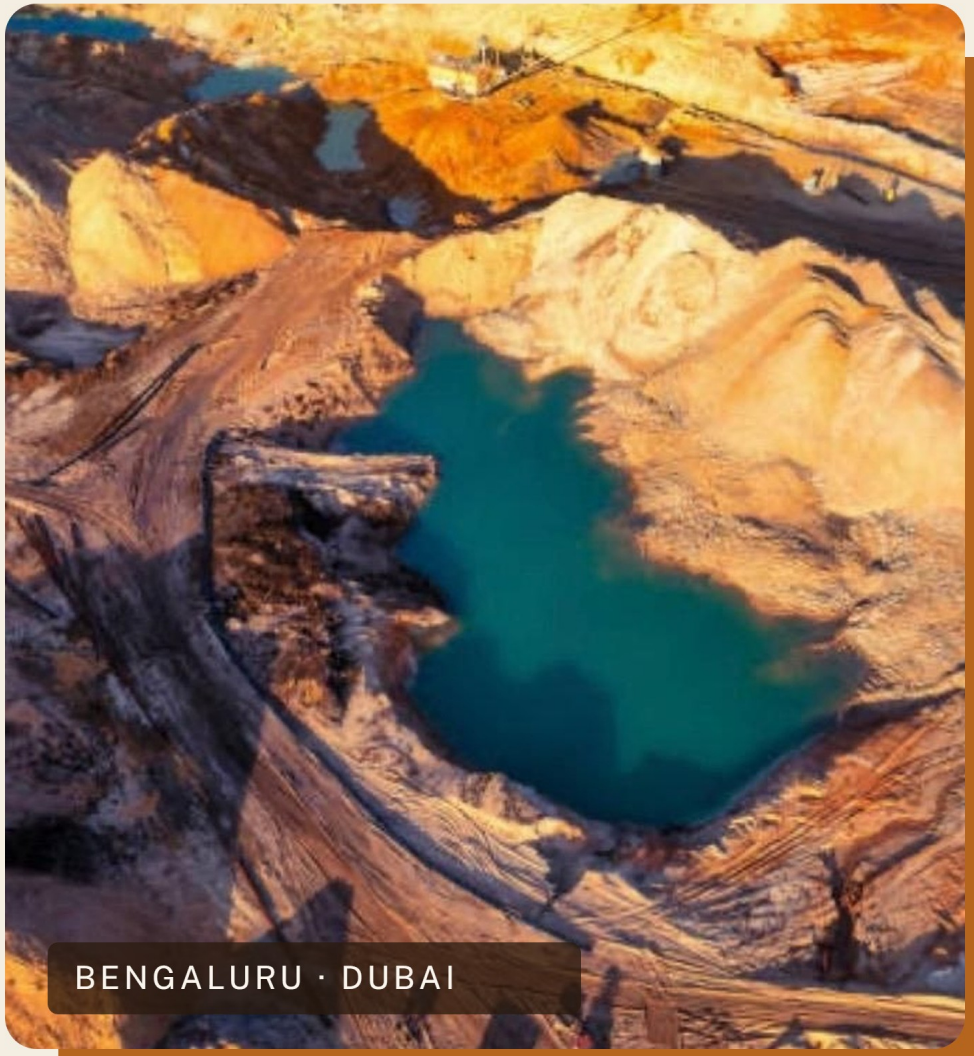

Coal & Coke ◆ Iron Ore ◆ Manganese ◆ Limestone & Dolomite ◆ Bauxite ◆ Metals & Allied

VICIOUS STONE

Nature's Finest, *Unearthed.*

Trading, sourcing and supply of coal, iron ore, minerals and allied industrial commodities.

- Coal & Coke
- Manganese Ore
- Bauxite
- Iron Ore & Pellets
- Limestone & Dolomite
- Metals & Allied Products

ABOUT US

A Bengaluru-based coal & minerals trading house

Vicious Stone Private Limited is a Bengaluru-headquartered company incorporated under the Companies Act, 2013, engaged in the trading, sourcing and supply of coal, coke, iron ore and allied minerals.

From Bengaluru, with business development in Dubai, we connect industrial buyers in India and the Middle East with dependable sources of coal and minerals, managing specification, logistics and documentation so material reaches site on schedule.

AT A GLANCE

INCORPORATED
6 November 2024

CONSTITUTION
Private Limited Company

REGISTERED OFFICE
Koramangala, Bengaluru

CORE BUSINESS
Coal, Iron Ore & Minerals Trading

WHAT WE TRADE

Coal grades we deal in

Anthracite

Highest carbon, hardest grade. Limited Indian reserves; largely imported for specialised metallurgical use.

Coking Coal

Converted to coke for blast-furnace steel-making. Sourced from Jharia and Bokaro and via imports.

Thermal Coal

Non-coking bituminous, India's largest category. Used in power, cement and industrial boilers.

Sub-Bituminous

Lower calorific value. Widely used in thermal power plants across central India.

Lignite

Lowest grade, high moisture. Mined in Tamil Nadu and Rajasthan for pit-head power plants.

India is the world's second-largest producer and consumer of coal, yet still imports coking and high-grade thermal coal. That supply gap is where we work.

BEYOND COAL

Iron ore & industrial minerals

The raw materials that sit alongside coal in every steel, alloy and cement plant — sourced from India's leading mining belts.

FINES · LUMPS · PELLETS

Iron Ore

For sponge iron, pellet and steel plants. Odisha, Jharkhand, Karnataka and Chhattisgarh.

FERRO-ALLOY GRADE

Manganese Ore

For ferro-alloy and steel-making. Odisha, Madhya Pradesh, Maharashtra and Karnataka.

FLUX & KILN FEED

Limestone & Dolomite

For steel fluxing and cement. Rajasthan, Madhya Pradesh and Andhra Pradesh.

METALLURGICAL & CEMENT GRADE

Bauxite

For alumina refining and cement. Odisha, Jharkhand and Gujarat.

WHAT WE OFFER

Products & services

01 Thermal Coal Supply

Non-coking coal for power plants, cement units and industrial boilers, matched to the required calorific value.

02 Coking Coal & Coke

Coking coal and coke for steel plants and foundries, for blast-furnace and induction applications.

03 Trading & Blending

Domestic and imported grades, with blending support to meet each buyer's specification.

04 Iron Ore & Minerals

Iron ore, manganese ore, limestone, dolomite and bauxite for steel, alloy and cement plants.

05 Logistics Coordination

Coordination with transport and shipping partners for timely pan-India delivery.

06 Compliant Documentation

GST-compliant invoicing and transport paperwork in order for every consignment.

INDUSTRIES WE SERVE

Wherever heat drives production

Steel & Sponge Iron

Coal, coke, iron ore and fluxes for iron and steel-making.

Power Generation

Thermal coal for captive and independent power plants.

Cement

Thermal coal for kiln firing in cement plants.

Foundries

Coke for cupola and induction melting.

Industrial Boilers

Steam coal for manufacturing and process industries.

SOURCING FOOTPRINT

From India's major mining belts and global origins

Access to domestic coalfields and import channels gives buyers a choice of grades, origins and price points.

Source	Region
Jharia & Bokaro	Jharkhand
Raniganj	West Bengal
Korba	Chhattisgarh
Talcher & IB Valley	Odisha
Singareni	Telangana
Neyveli (lignite)	Tamil Nadu
Iron ore belts	Odisha, Jharkhand, Karnataka
Imported coking & thermal coal	Australia, USA

HOW WE WORK

From requirement to delivery

01
Requirement
Grade, quantity, specification and delivery window agreed with the buyer.

02
Sourcing
Material identified from vetted mines, suppliers and import channels.

03
Specification
Grade and quality parameters confirmed against the buyer's requirement.

04
Logistics
Transport planned and coordinated through to the delivery point.

05
Delivery
Material delivered with GST invoicing and transport papers in order.

WHO WE WORK WITH

Built for long-term partnerships

Buyers

- Reliable supply across domestic and imported grades
- Material matched to your specification
- Coordinated delivery to your site

Suppliers & Mines

- Access to an active industrial buyer network
- Clear, documented transactions
- Logistics handled end to end

Brokers & Agents

- Transparent deal structures
- Responsive teams in Bengaluru and Dubai
- Long-term working relationships

OUR REACH

Bengaluru to Dubai

HEADQUARTERS · INDIA

Bengaluru, Karnataka

Registered office and operations in Koramangala. Sourcing, logistics and documentation for pan-India supply.

MIDDLE EAST · UAE

Dubai, UAE

Business development for buyers, traders and partners across the Gulf, led by Tahrem Hussien.
